	Folkortation	Coordination Rebecca Wiegmann	Please contact us about dates	Mekong river, Thailand in Ubon Ratchathani.	1 person: 18.000 THB 2 people: 12.000 THB/person 3 people: 9.000 THB/person 4 people: 8.500 THB/person	4 days, 3 nights	Whole family	140	Culture experience, living with locals	https://www.facebook.com/yokatorthailand/	For more details please contact me and I will send you the brochure	This program is centered around immersing yourself in the local community and interacting with different villagers. You'll have the chance to explore different spots and engage in various activities as different villagers invite you to participate in them. This will also include activities both in the river and up in the mountains. In this village, the locals are so familiar with the river since fishing is their main livelihood activity. You'll get to camp with local fishermen who have extensive knowledge of the river and the fish that live in it. It's a great opportunity to experience authentic village life and learn about their unique way of living includes an English-Thai speaker. You will need the translator in order to understand small matters				
	NatureMindED	Coordination Rebecca Wiegmann	17-26 January 2025 & 1-10 July 2025	Krabi Thailand	FULL PASS Adult (16+): 790 USD / 2000THB Child (4 - 15): 470 USD / 1240THB Under 4 - FREE	10 days	Children	140	We prepared a well balanced mix of Environmental education and sustainable living experiences, outdoor leadership activities, cultural immersion together with a touch of self-development practices throughout the program for the whole family. Of course dedicated reflections on parenting, schooling and learning perspectives will be discussed and explored during dedicated workshops. While everything is highly adaptable we plan to have a progressive immersion into: 1. The role of nature, mindfulness and movement for transformative learning focusing on building confidence, outdoor leadership, nature awareness, mindfulness and self-discovery among other competencies. 2. Experiential nature education and cultural immersion. Krabi is rich in natural and cultural capital which we will explore hands-on focussing on community service, community-based natural resources conservation, permaculture and sustainable living workshops. 3. Unschooling/workbook-based workshops. The activities we propose, the people we will meet and the memories we will create provide a context for sharing parenting experiences during facilitated workshops. 4. Reflections. Towards the end of the retreat we focus on self-reflection through nature therapy, energy healing and sound	https://www.facebook.com/NatureMindED/	www.naturemind-ed.com/experiences/educational-program	It is all about spending time in nature as a temporary community, learning new skills, acquiring new practical knowledge, being inspired, discovering new ways of doing and knowing, breaking through standards of living and preconceived ideas, fueling our spirit of adventure and building resilience, and more. OUR TEAM: HIGHLY qualified, yet humble, rugged and compassionate; unassuming and capable, these men and women have chosen a life of adventure and learning. In the bling wind and beating sun. And they've got the skills to prove it. NatureMind-ED educators are trained to identify, assess, and approach risk as a learning tool, to be managed but not eliminated. They possess deep, proven technical abilities and years of experience leading and participating in expeditions. Even more than all of that, NatureMind-ED's instructors are authentic, accomplished educators and role models. Expert in helping students transform observations into life lessons. Genuine in their desire to turn seemingly subtle reflections into life-long practices.	https://www.facebook.com/naturemind-ed/
